

一个开源框架介绍

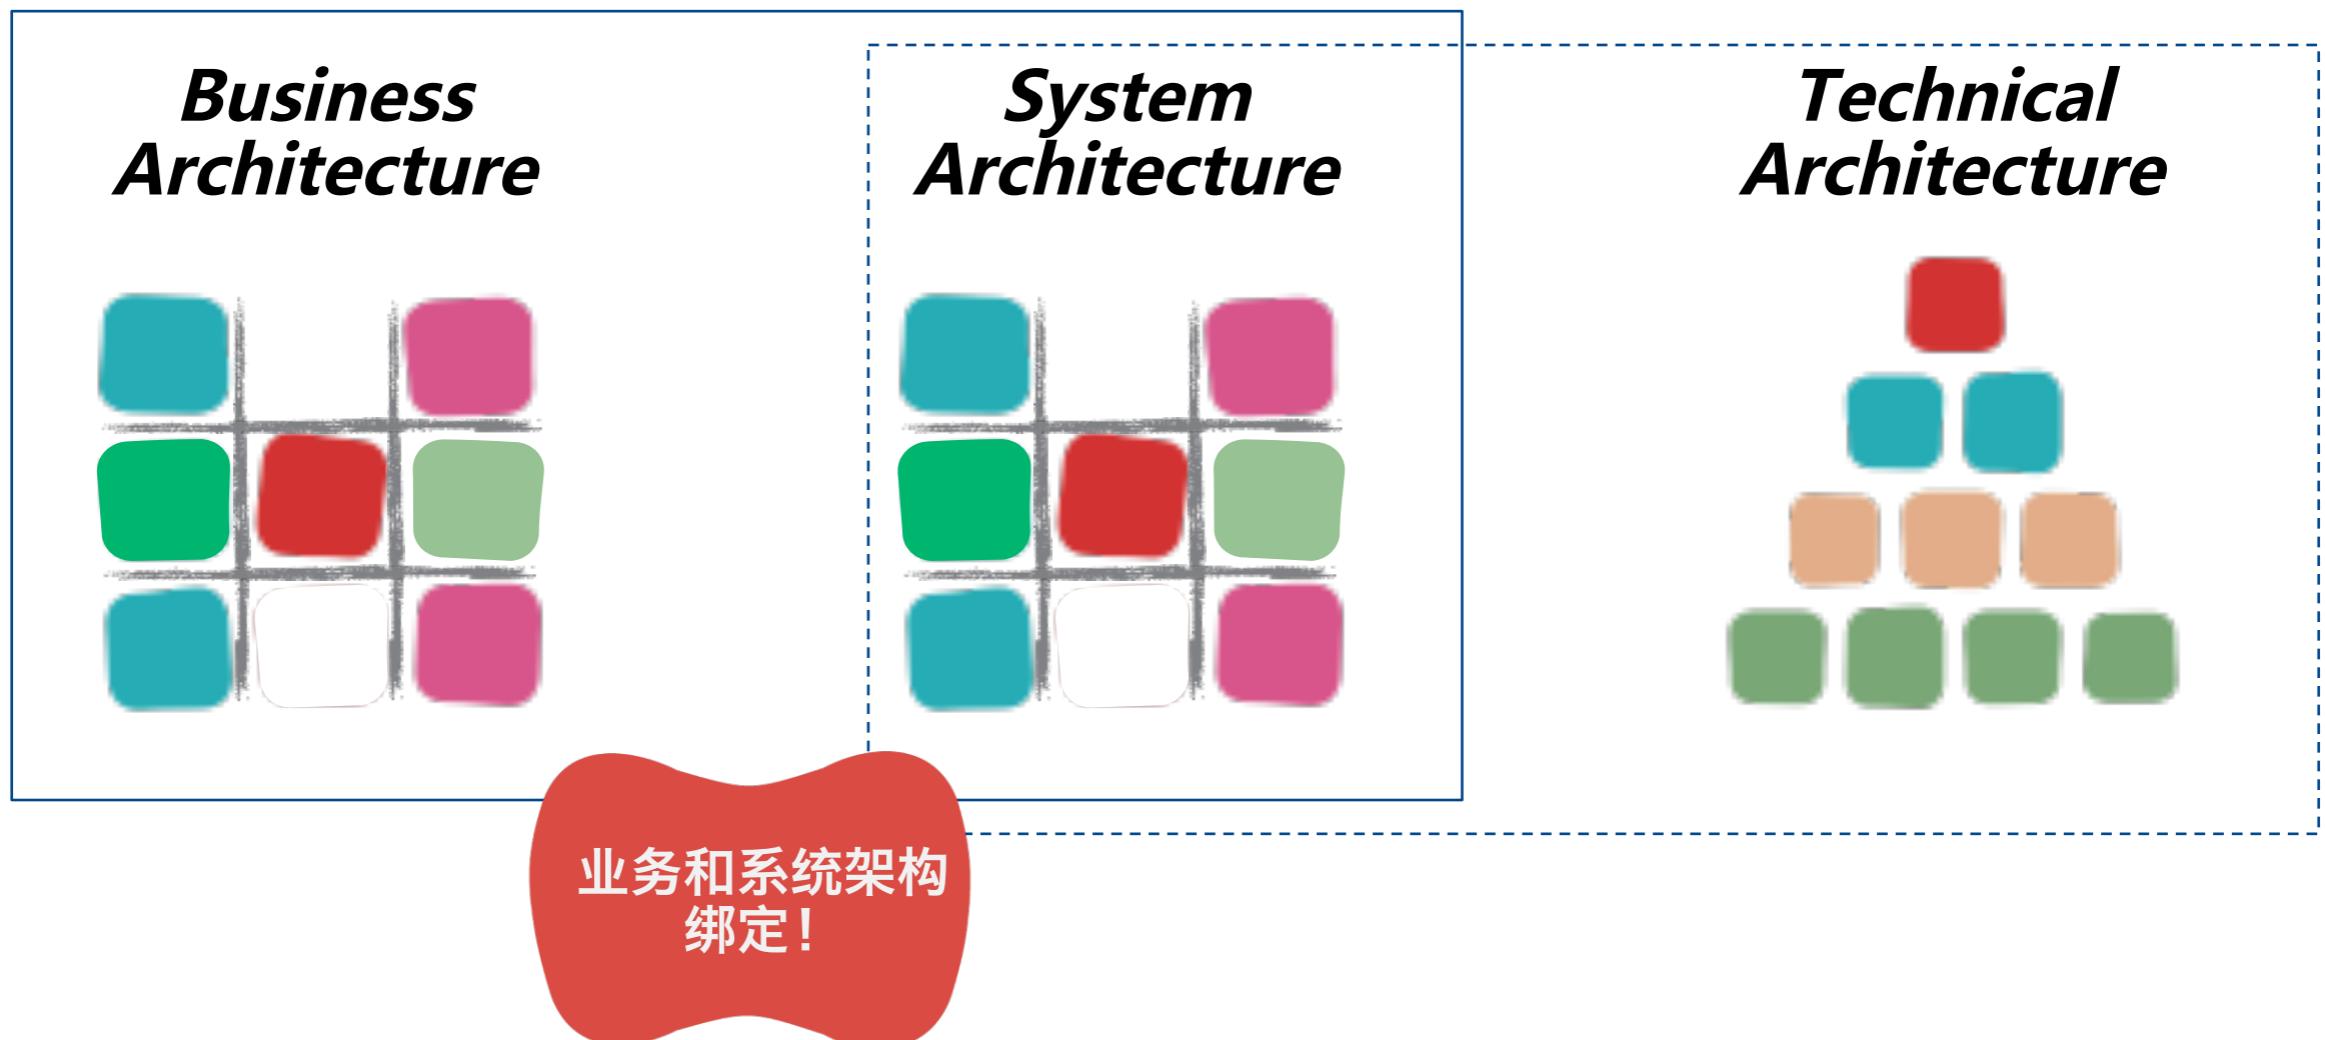

你的领域架构落地了吗？

李新
DDD China 2017

DDD的优势是什么？

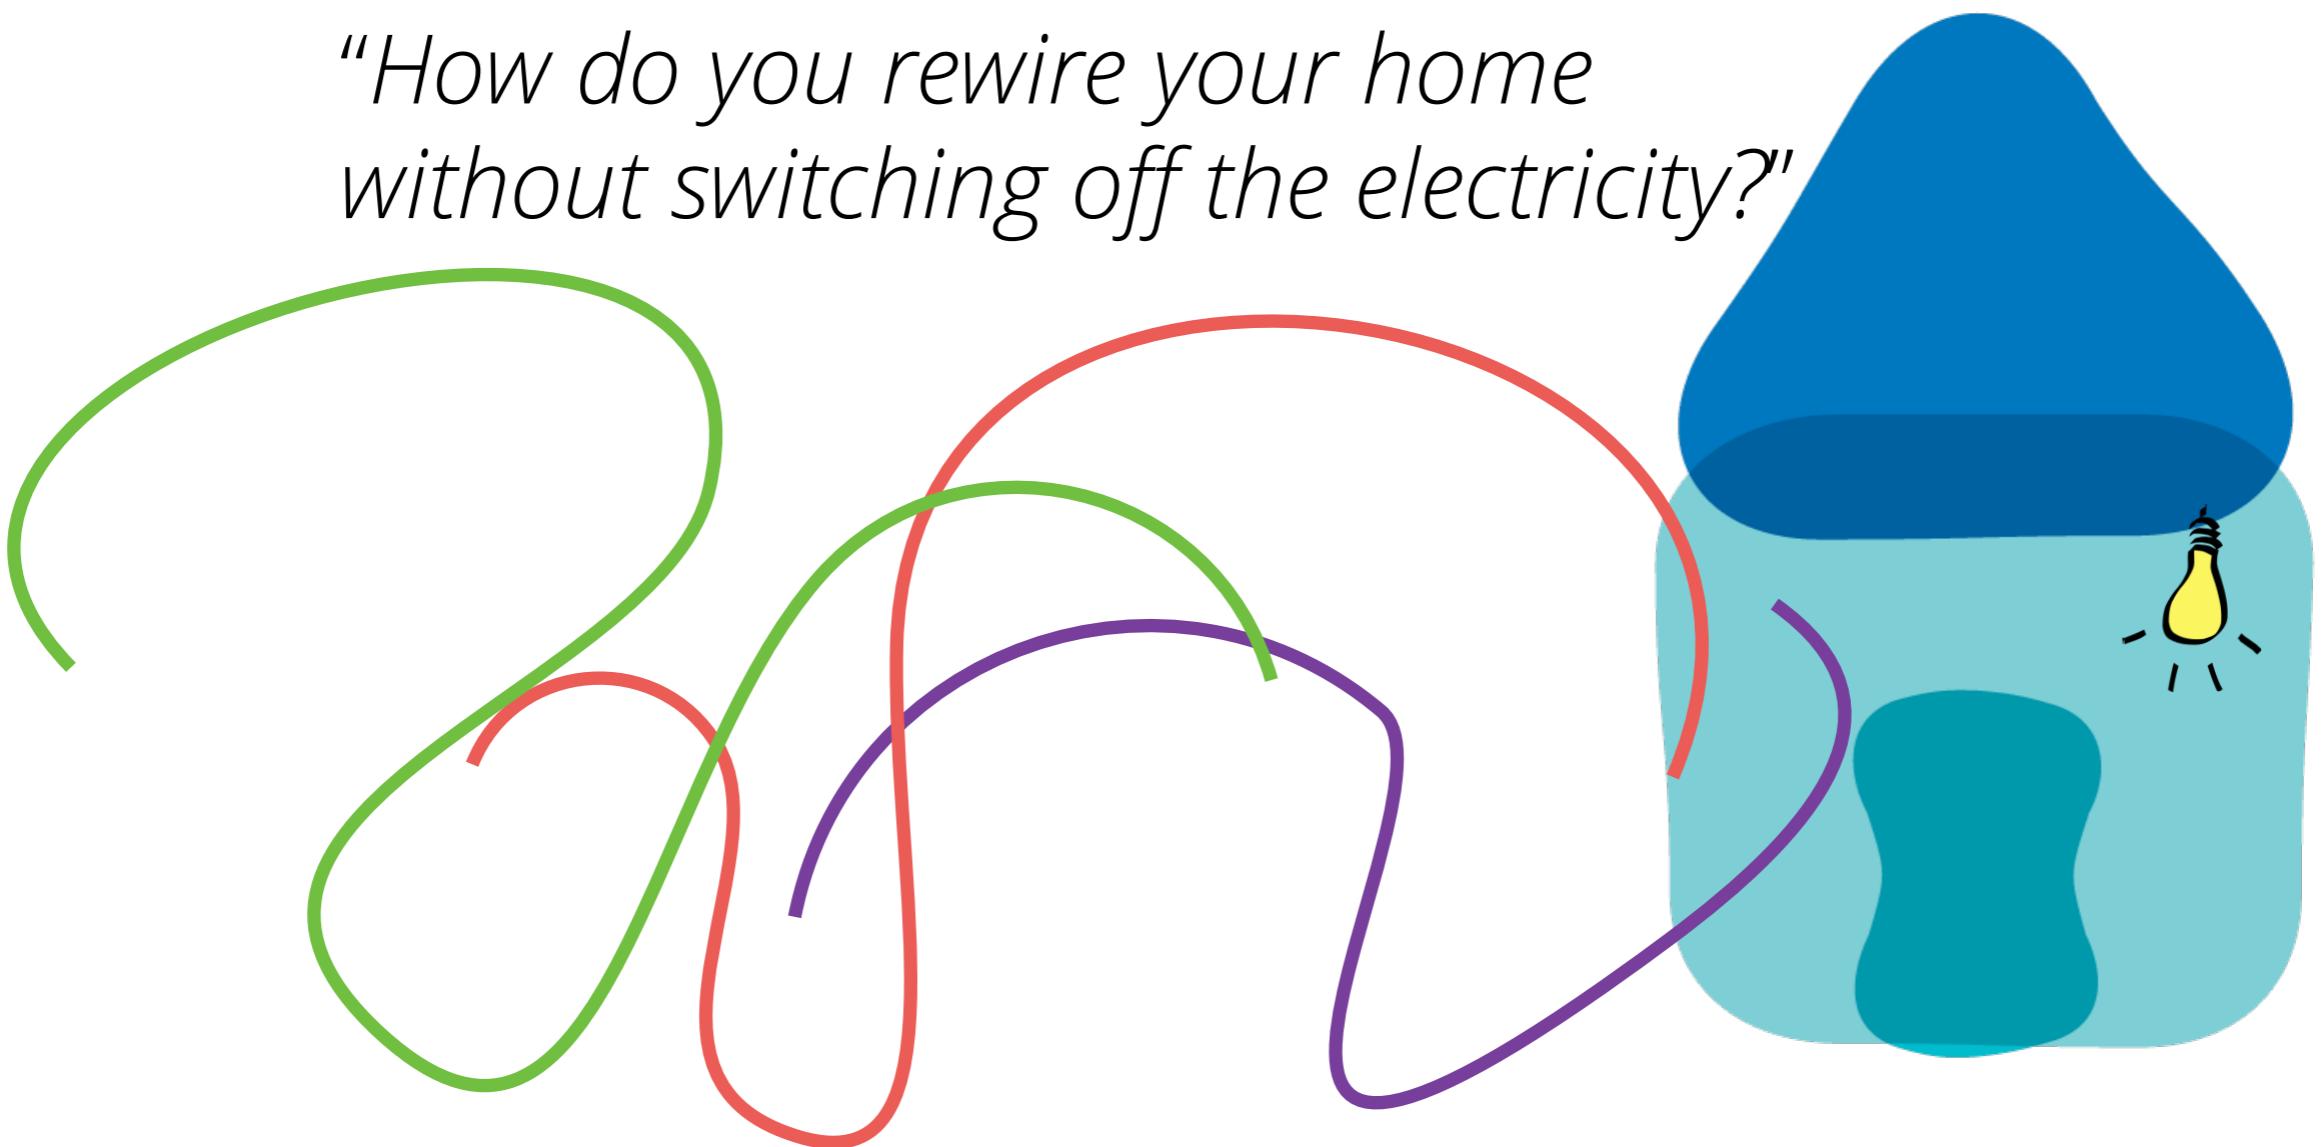

领域模型实施的要求

领域模型建立的难点

“我们怎样在工作的系统中逐步建立
领域模型的概念？”

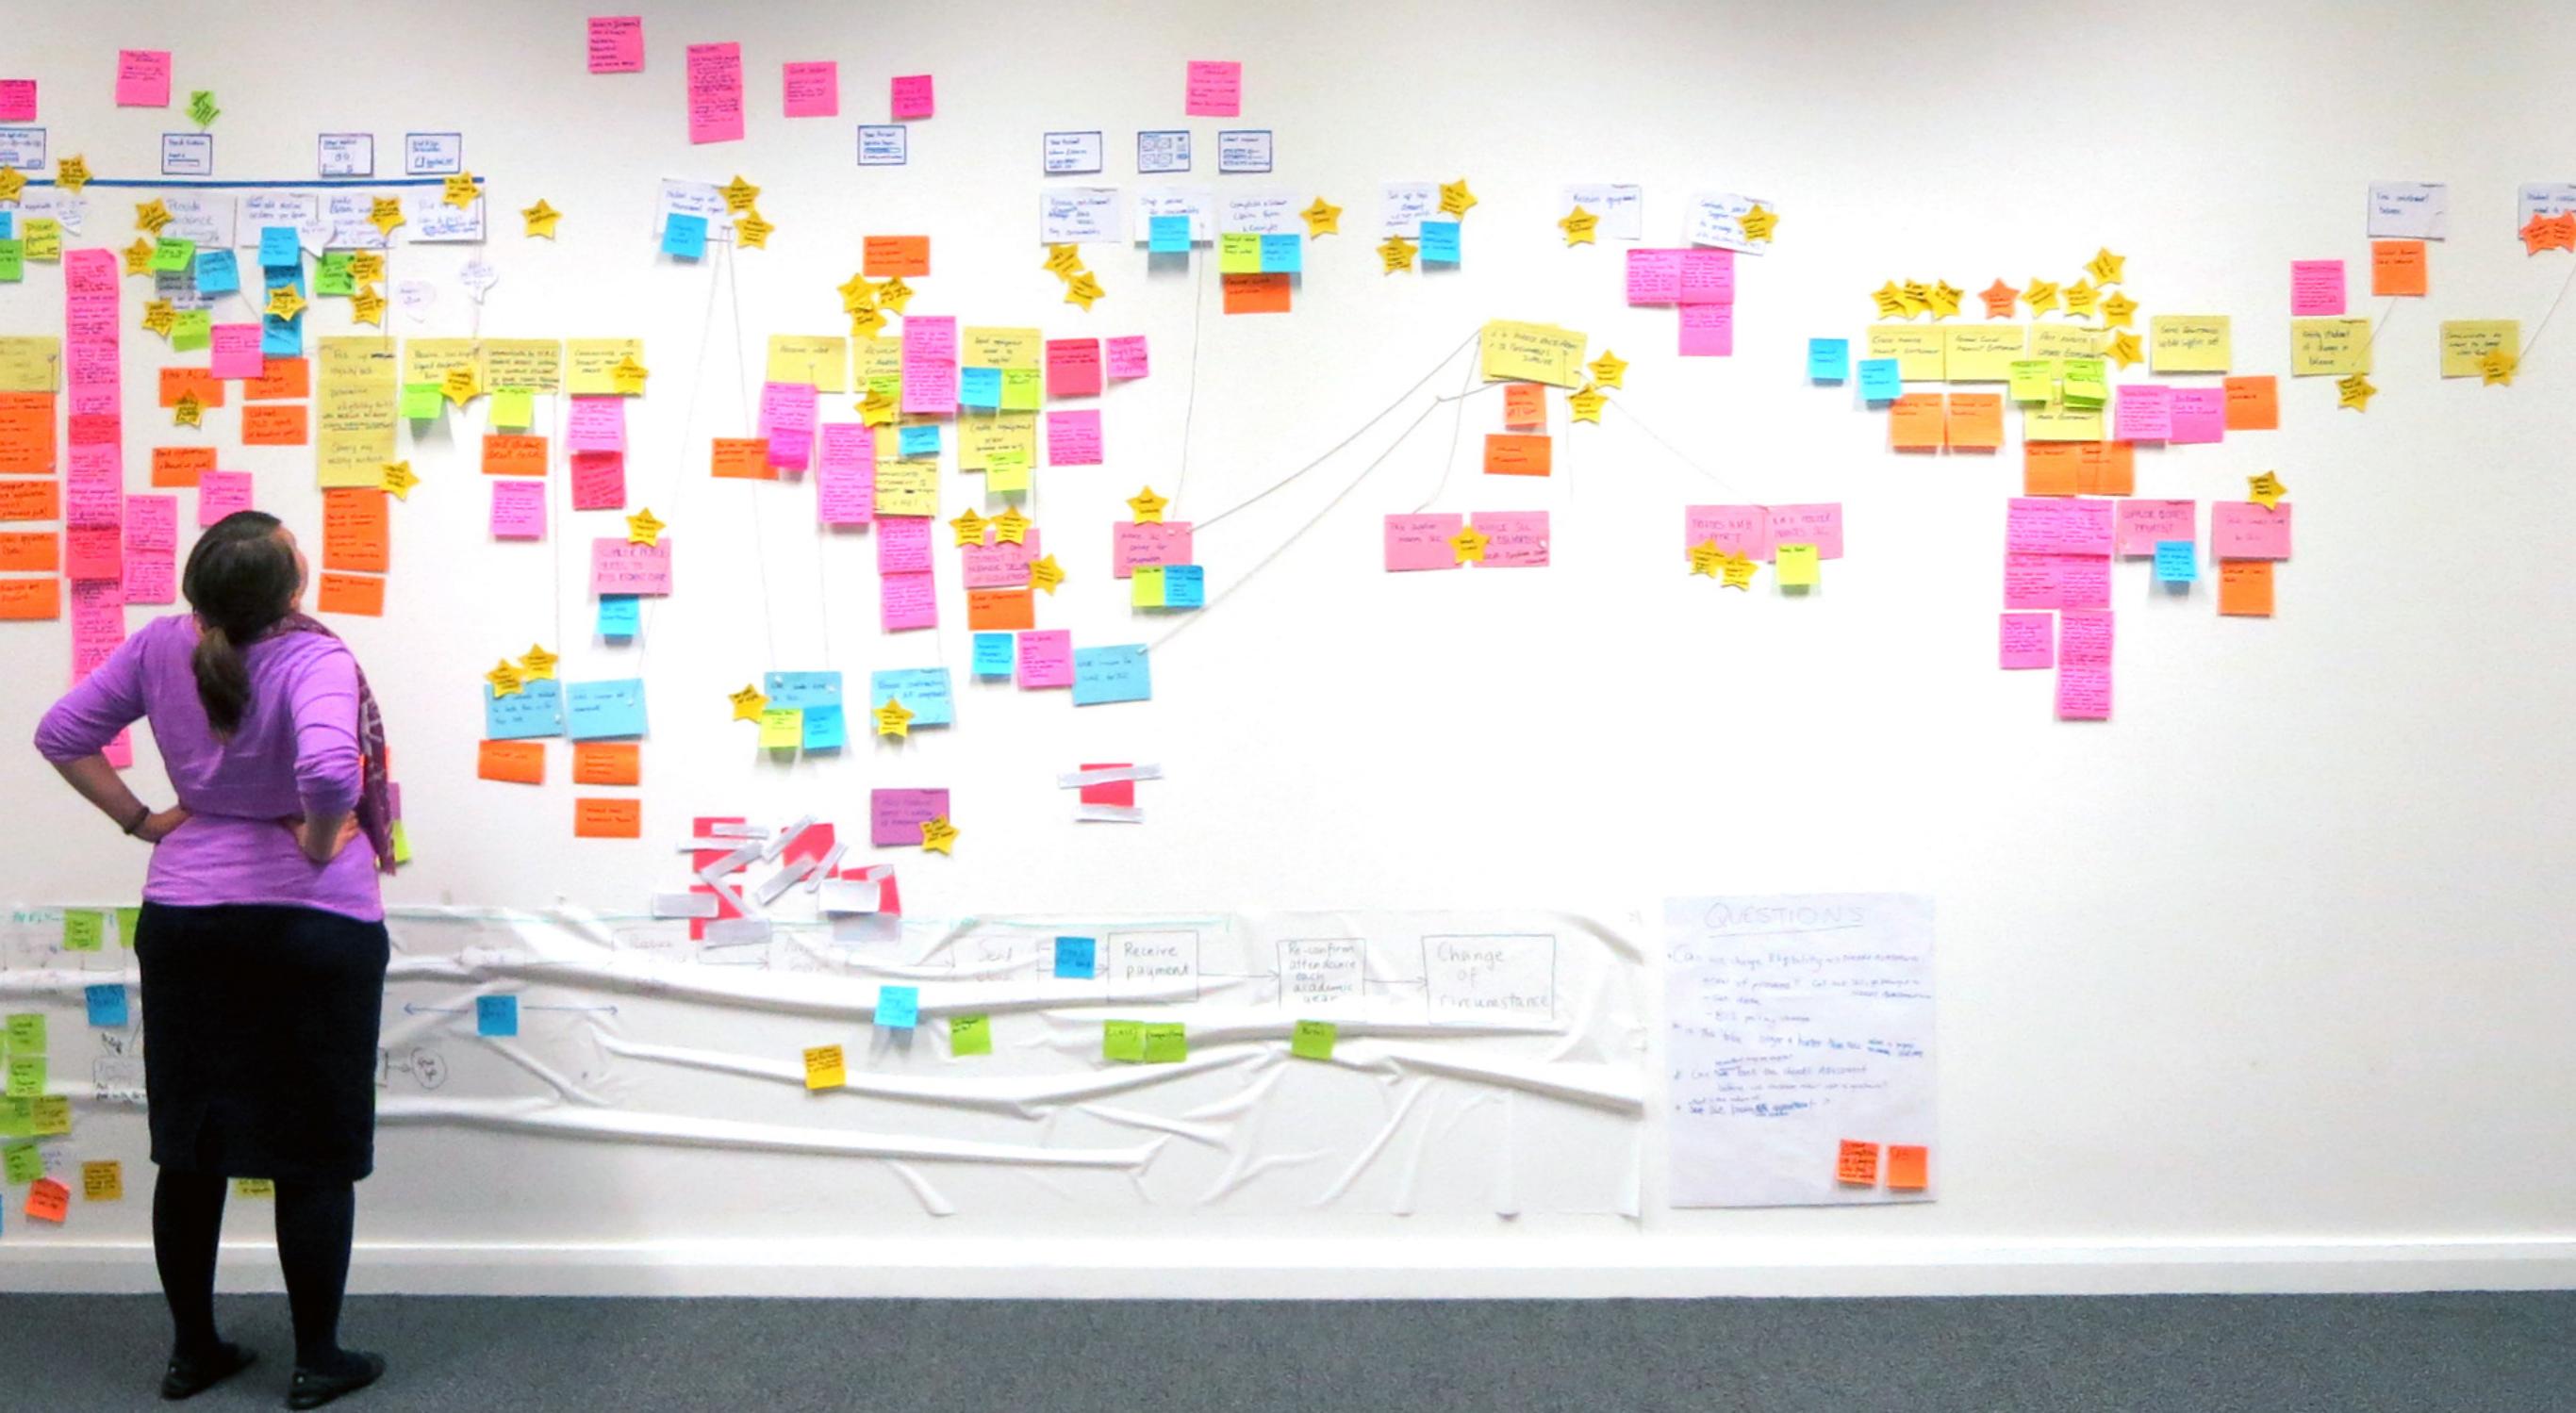

*“How do you rewire your home
without switching off the electricity?”*

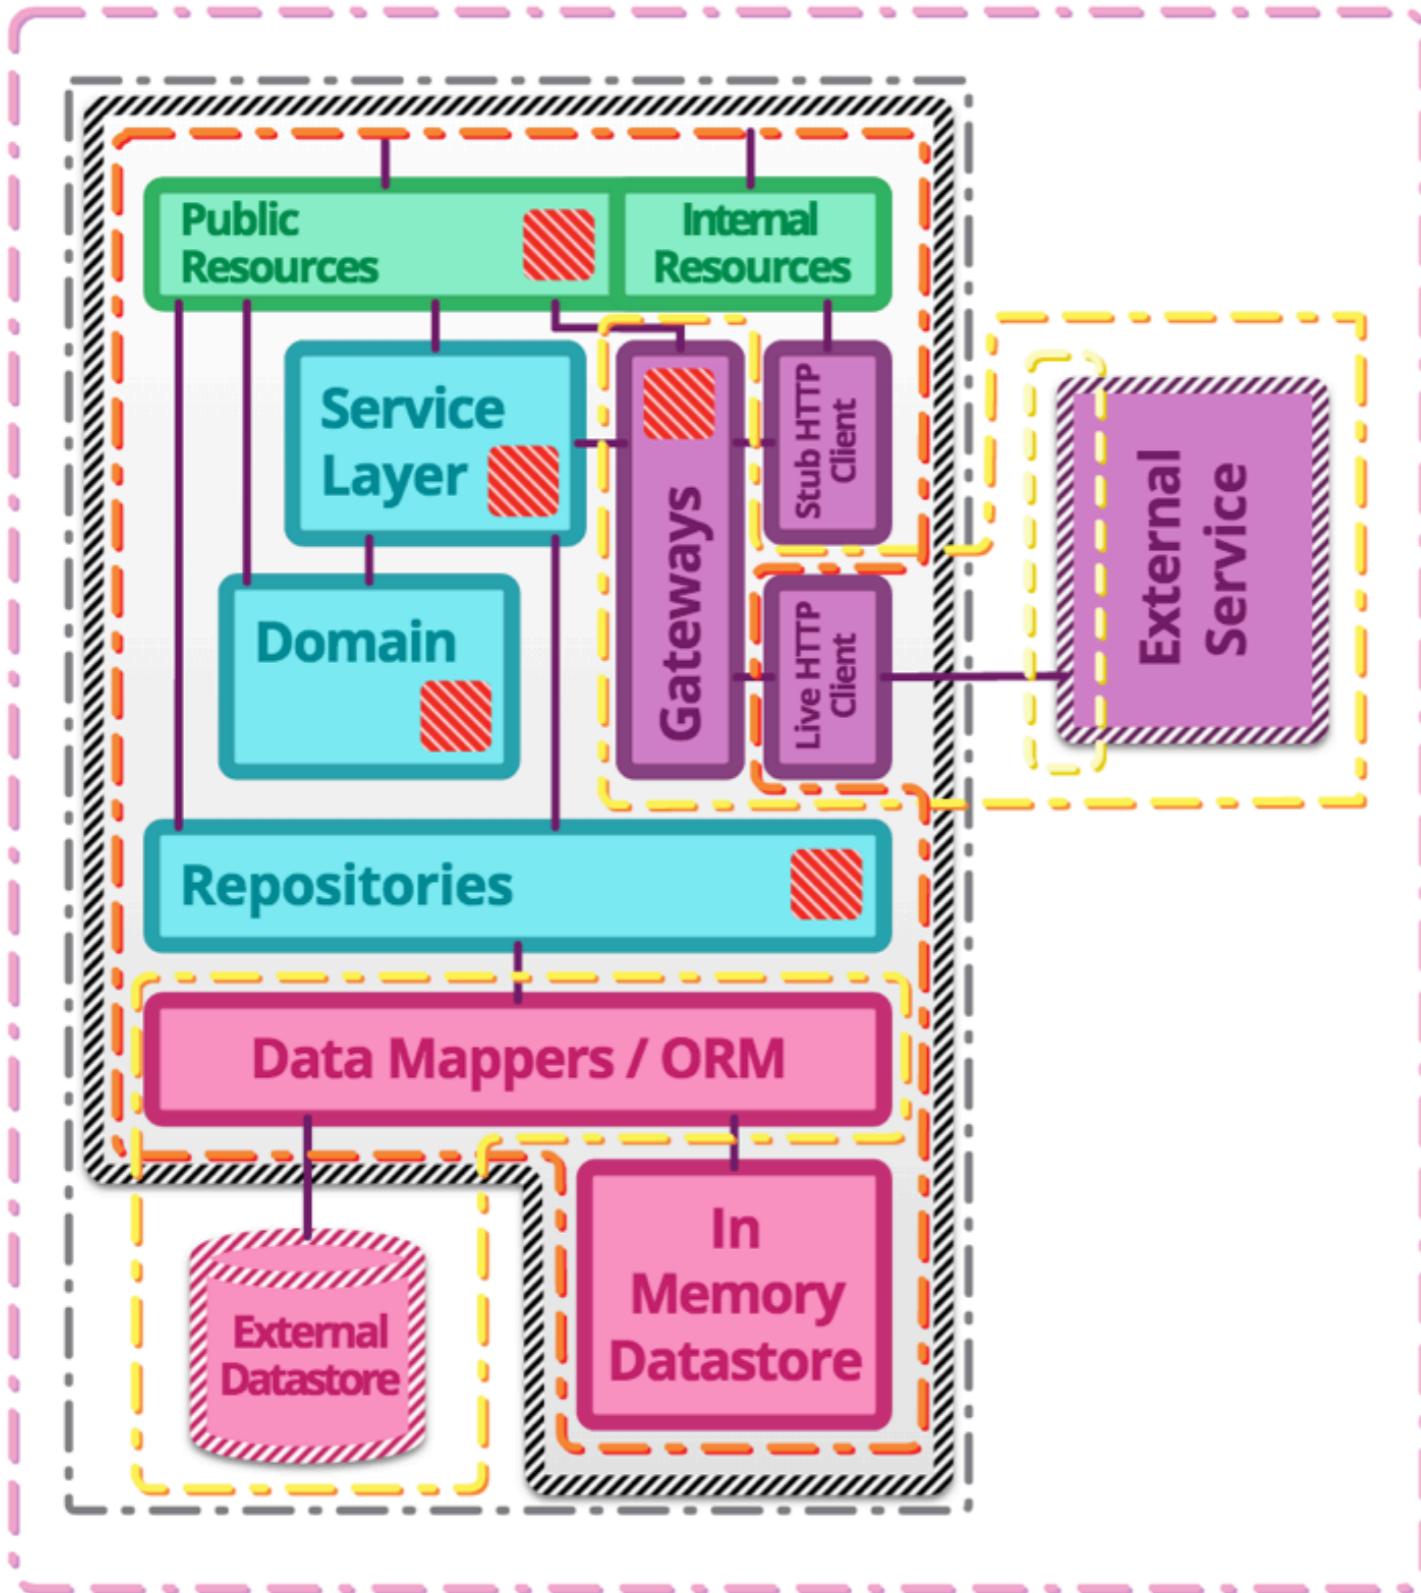

架构本身是用来交流的：得大家可视！

可视化有时候很难

架构应该是关注点分离的：得有分层结构！

理解老马的意思了吗？

守护分层架构也是一件困难的事情！

I COULD RESTRUCTURE
THE PROGRAM'S FLOW
OR USE ONE LITTLE
'GOTO' INSTEAD.

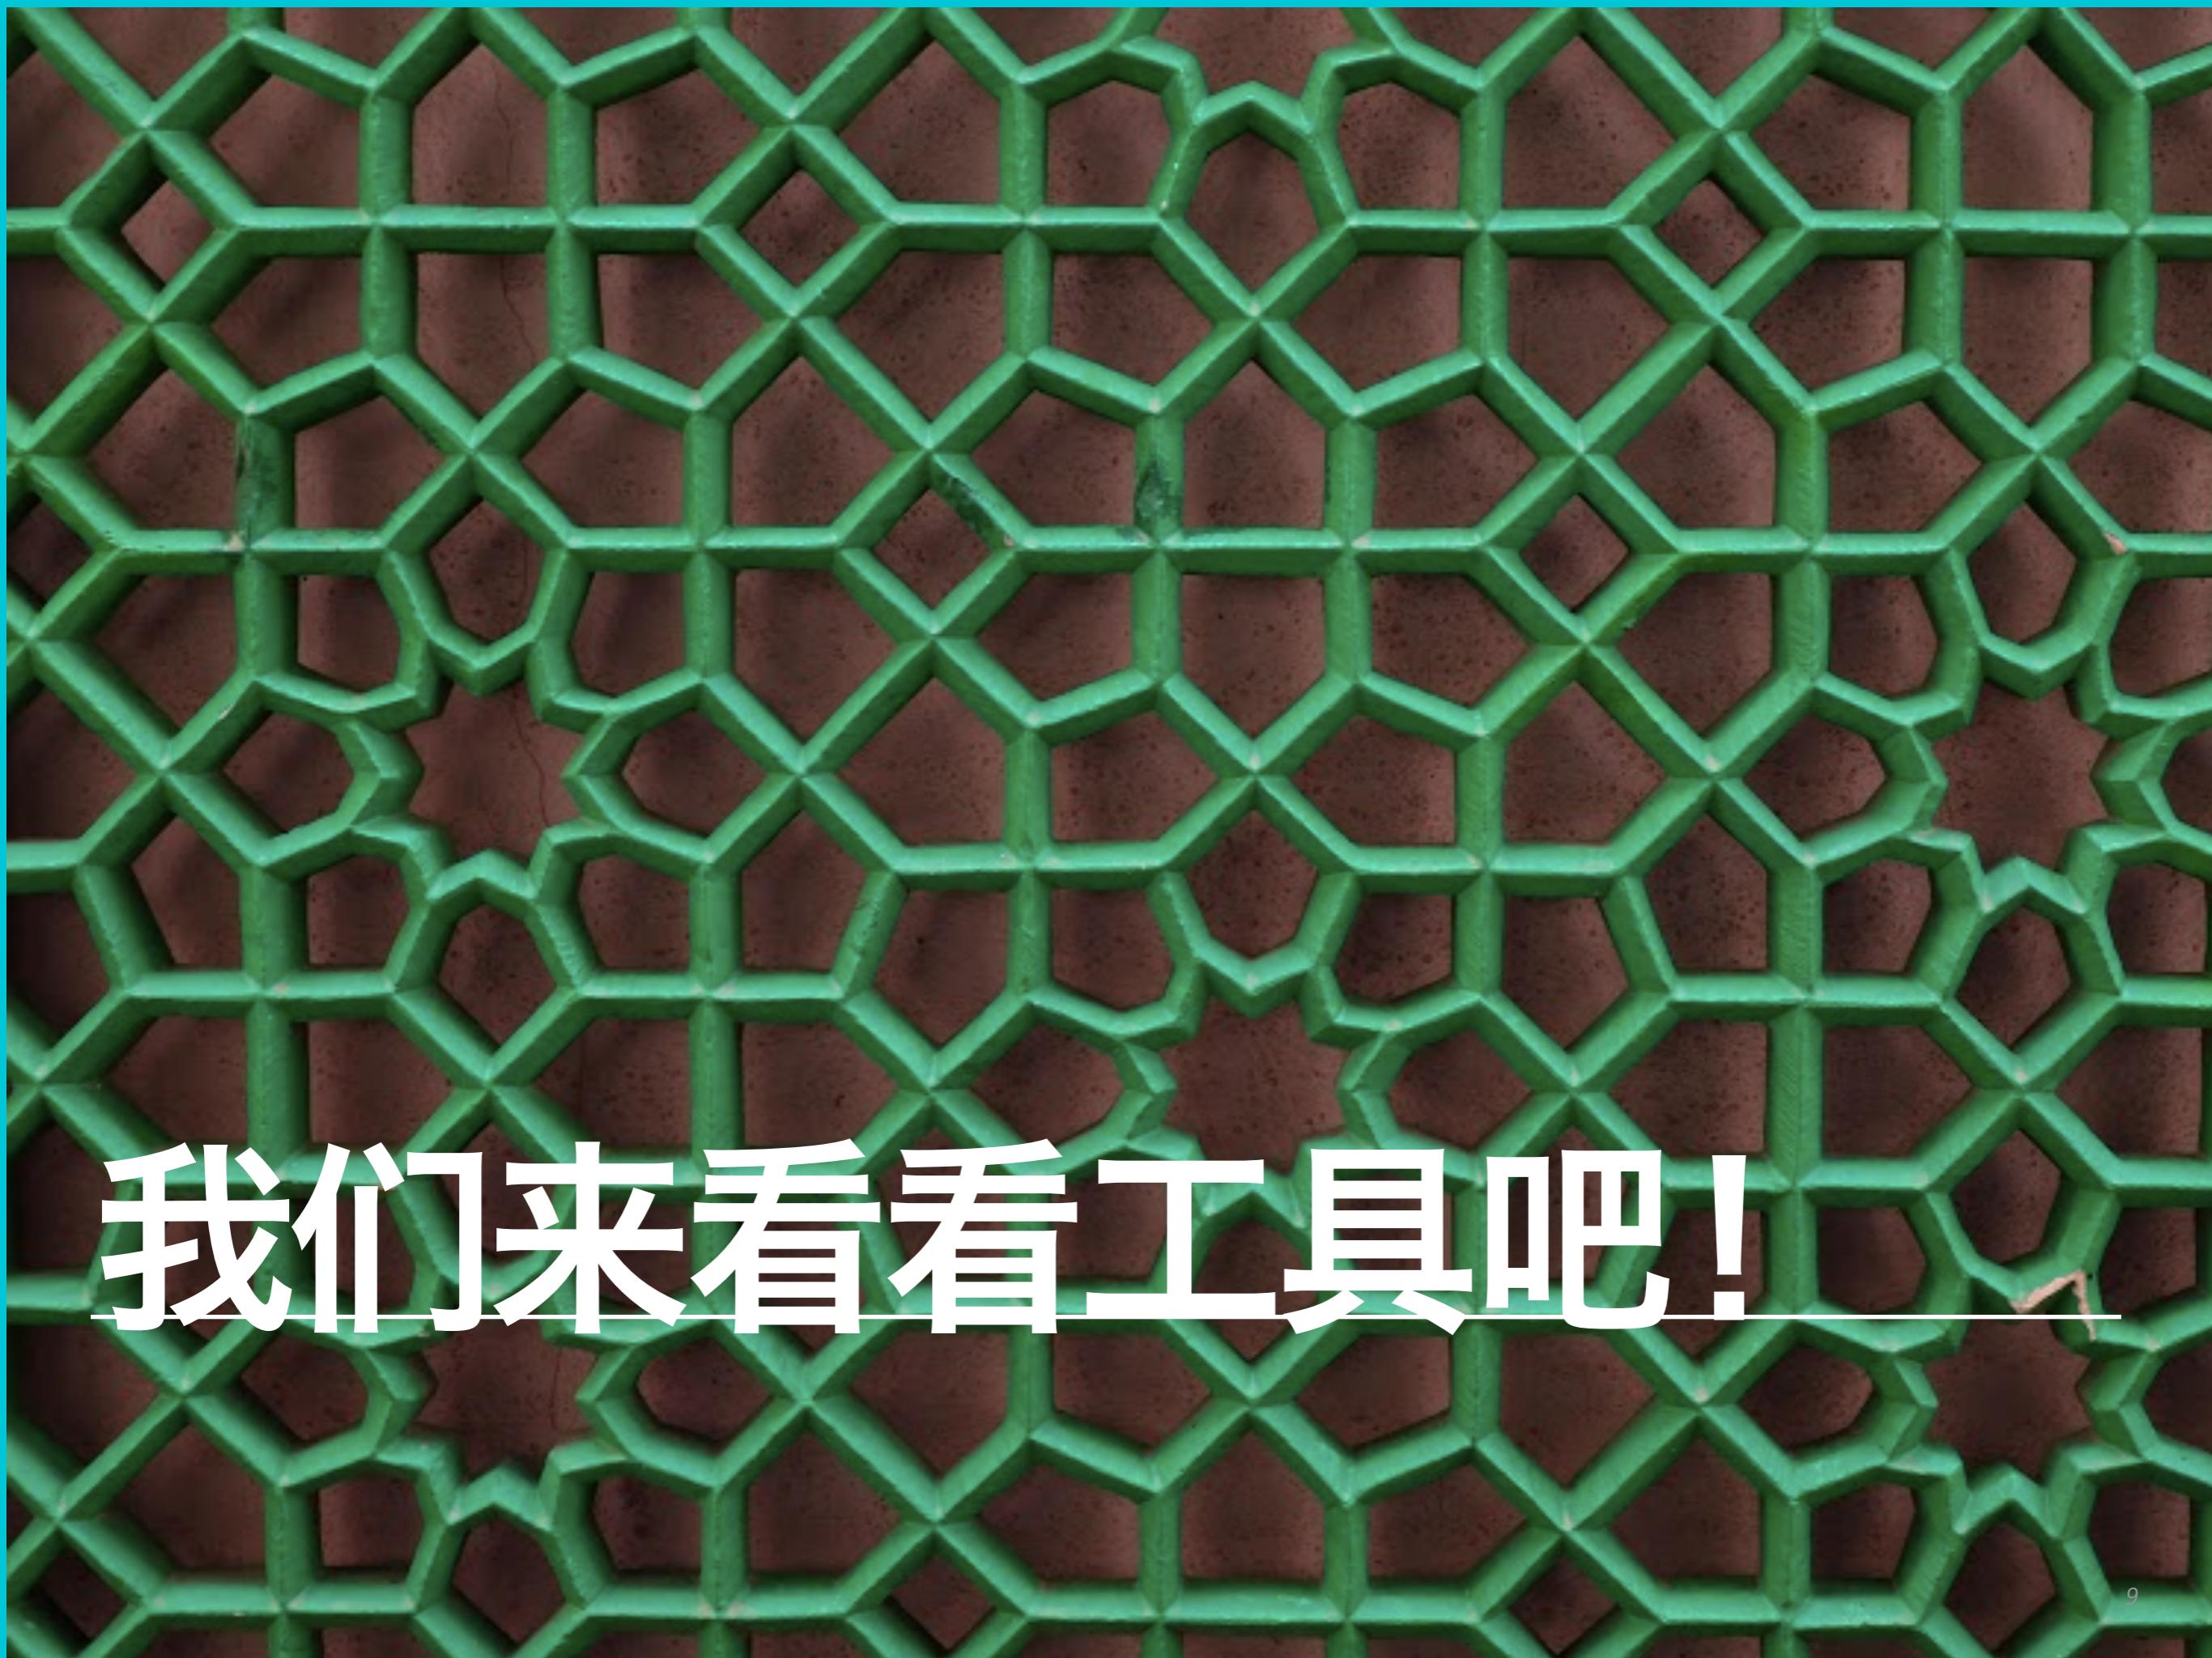

EH, SCREW GOOD PRACTICE.
HOW BAD CAN IT BE?

goto main_sub3;

COMPILE

我们来看看工具吧!

THANK YOU
